2nd Grade Curriculum

Bible

Daily learning focuses on the foundational teaching from the Bible about the nature and the character of God, the qualities of his people, and his church. Students are given an overview of the entire Bible, with an emphasis on God's attributes, biblical characters, the early Church, and what it means to know Jesus Christ and live for him. The students study character traits of various people in the Bible with application to student's life. The purpose is for every student to develop a Christian worldview and to have an in-depth knowledge of Bible truths, as well as the ability to apply scripture to their daily lives.

Saxon Math

Saxon 3 math curriculum includes mentally solving 1-12 addition, subtraction and multiplication problems, solving word problems with three and four steps, counting money, telling time, introduction to division, etc.

Language Arts

The intensive phonics approach includes phonics workbooks, penmanship and phonics-based spelling. Students read literature books such as The Boxcar Children and Little House on the Prairie. 3 Writing activities are integrated across the curriculum.

Grammar

The Shurley Grammar curriculum emphasizes jingles, chanting and a question and answer flow that helps students to identify parts of speech.

Writing

The writing curriculum includes poetry, creative writing, 1 - 3 paragraph essays, learning to write from an outline and learning to write from research.

History

The curriculum focuses on Old Testament and Ancient Egyptian history. Students learn about the important people, dates, and events of the time.

Art

Students discover the elements of art as they work on two dimensional and three-dimensional projects.

Geography

Curriculum is integrated with history and includes the teaching of various landforms. Students learn about oceans, continents, Georgia and surrounding states, maps, graphs, compass, etc.

Science

Students will discover, learn, and understand science which presents God as the Master Designer of the universe. Students will develop a greater reverence for the God Who planned it all. Students will also become more interested in science and will better understand basic concepts through hands-on activities, experiments, and demonstrations. Students will gain a greater interest in science through reading facts about themselves and the world around them.

Music

The music program within the classroom encourages students in their singing and worship.

Physical Education

The physical education program helps students develop their gross motor skills, learn game skills, and grow in their understanding of honoring God in athletic competition.

2nd Grade Literature List

The following is the list of adopted titles used in the Second Grade reading program. (Although certain titles are assigned to specific grades, when necessary, teachers may use titles from the list above or below their grades.) Students will read at least 10 books during the year.
